Project leadership

I am leader of the INCA project (“Infrastructure for Content Analysis”, <https://github.com/uvacw/inca>), in which we develop and maintain an infrastructure for automated content analysis, used by researchers across the Department of Communication Science. I continuously supervise student assistants, interns, and scientific staff that contribute to the project.

Current research projects

Detecting and analyzing news events

Internal project

2018–

In this project, I try to develop a method to automatically identify “news events” in large corpora of news articles in order to answer questions about intermedia agenda-setting effects, news diffusion, and news diversity.

Use of, attitudes towards, and effects of news recommender systems

Internal project; project with Volkskrant, NL; project with LMU München, DE 2017–

We investigated (with Neil Thurman, LMU, Judith Möller, UvA, Natali Helberger, UvA) how media users evaluate the use of algorithmic news recommendations; with Felicia Löcherbach, VU, NL I developed a platform to test their effects, and with Judith Möller, Natali Helberger, Bram van Es (all UvA, NL), I investigated in cooperation with a large Dutch newspaper the impact of news recommendations on content diversity.

Infrastructure for content analysis

Internal project 2014–

Development and maintenance of software and hardware infrastructure for automated content analysis.

Online news use

Projects funded by NWO (Dutch Science Foundaton) and ASCoR 2018–2022

Together with two PhD students that I co-supervise (see sections *PhD supervision* and *grants and awards*), I analyze the use of online news use.

The credibility of credibility measures

Project with U of Missouri, US, and U Luzern, CH 2012–2019

The project with Lea Hellmüller and Anina Hanimann aims at creating an extensive review of the use of credibility measures in the communication science literature.

Completed research projects

The State of automated content analysis

Internal project 2016–2018

In this project, we mapped the state of the art of automated content analysis and developed suggestions for further methodological development.

Personalised Communiation

Interdisciplinary project 2015–2018

I participated in this large interdisciplinary project (PIs: Natali Helberger and Claes de Vreese) with 0.2 FTE for three years. Using both tracking data and survey data, I focused on the analysis of personalised news use.

Economic news

Internal project 2016–2017

With several colleagues, I looked into coverage about companies, including the relationship with stock exchange rates.

News values and news sharing

Internal project 2015–2017

In this project, I analyzed news values in online and offline news, and how these are related to news sharing.

Incivility in online comments

Internal project 2015

Together with Linda Bos, I investigated the deliberativeness and incivility of comments on online news sites.

Twitter and the public sphere

Project with TU Dortmund, DE, FU Berlin, DE, and RU Nijmegen, NL 2013–2018

I investigated debates on Twitter in Brazil and the Netherlands, together with Mariella Bastian, Débora Maria Moura Medeiros, Judith Möller, and Marijn van Klingeren.

Selective exposure in a multi-party system

Project with U of Haifa, IL and RU Nijmegen, NL 2013–2015

In this project with Yariv Tsfat, University of Haifa, and Marijn van Klinger, Radboud Universiteit Nijmegen, I conducted an online experiment on the effects of selective exposure in the Dutch multi-party system. The project was funded in kind with 0.2 FTE research time by the Graduate School of Communication and with $\approx 2,000\text{€}$ in cash for data collection costs by the University of Haifa.

Second screen usage

Internal project

2012–2017

In this project, I investigated how Twitter content reflects television content. The second part was done together with Mark Boukes.

Patterns of online and offline news consumption

PhD project

2009–2013

In this project funded by the Amsterdam School of Communication Research and the Dutch Press Fund, I conducted survey research on news media use in the Netherlands and Austria.
